

Project Collaborator Hosting Packages Pricing

User Based:

The user based plan charges based on the number of users that are registered in the account. Each user is granted a user license and licenses may be shared amongst users. Therefore one user may have more than 1 login session active at a time, however the total number of active users may not exceed the number of users registered in the account. This plan is designed for organizations that will have frequent and steady use by the account users.

<i>Registered Users</i>	<i>Storage</i>	<i>Monthly Cost</i>
Pilot Package (1-3)	25 MB	\$30.00
Base Package (1 – 5)	100 MB	\$75.00
Each additional user	25 MB/Additional User	\$20.00

Usage Based

The usage based accounts charge on the number of concurrent users that may access the system and the amount of storage utilized. Therefore you may maintain an unlimited number of user accounts at any given time. This option is ideal for organizations that will have a low number of steady users but a large group of infrequent visitors, such as customers checking up on the progress of a project.
